# How to reset Sure Cuts A Lot license if PC format without deactivate flow ?

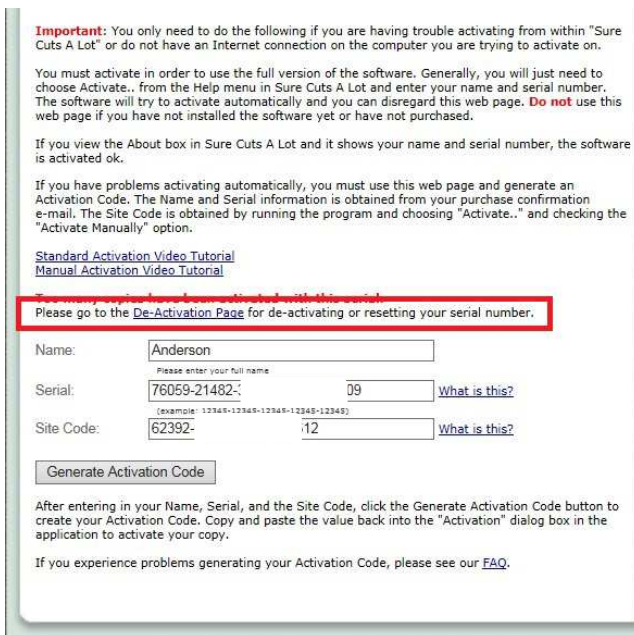

Revision History :

Version	Date	Page	CONTENTS
1.0	Oct., 2015		First release

1. Click on the web site link at the bottom left of Activate page

2. On the web site , click "De-Activation Page" at the middle of the page .

3. Enter the original register info and serial number, and the reason you need the license to be reset ◦

### Deactivate "Sure Cuts A Lot"

This page can be used to reset your serial number if you need to re-install the software again due to problems such as a computer crash/reformat where you were not able to de-activate your copy off the computer first.

If you still have an activated copy installed and you wish to deactivate to install on a different computer, you can choose Deactivate under the Help menu in Sure Cuts A Lot 2 instead of using this webpage. The deactivation option in Sure Cuts A Lot requires an internet connection.

**Important:** You will only be able to use this page on a limited basis to reset your serial number. If you need your serial reset again after using this page, you will need to contact [support@craftedge.com](mailto:support@craftedge.com) for help.
